# zehnder yucca asymmetric

Utilizing the Yucca asymmetric radiator, you will be able to create the bathroom of your dreams. On request mounted against a wall or installed as a partition, thereby turning any room, be it small or large, into a warm and cozy place. Groups of three horizontal radiator tubes project out to the right or to the left of the manifolds. The assembly on request single-row or double-row.

Material: Steel  
 Operating pressure: up to 12 bar  
 Connection: From below, G 1/2"  
 On request supplied with the connection block concealed behind a cover, coated to match the radiator.  
 Coating: Enamel (Colours shown in Zehnder catalogue),  
 Chrome-plated (not all models)  
 Large selection of additional accessories.

### Models for closed heating systems:

Model	Overall height mm	Overall length mm	Heat capacity (W)	
			ΔT=50K	ΔT=60K
<b>Single-row model</b>				
YA 40-130	1304	378	439	552

# zehnder yucca wave

The Yucca wave is the newest towel dryer in the Yucca series of designer radiators. Curved horizontal tubes and the curved vertical decorative panel make this unit worthy to be a sample of modern sculpture. It takes up very little space. It has the most options for drying towels and clothes. The horizontal tubes are curved to a

smooth wave to the right or to the left of the manifolds. The manifolds are concealed by the decorative panel. The Yucca Wave offers a wide selection of finishes for the tubes and for the decorative panel – from the standard white to an endless combination of colours and chrome plating.

Material: Steel

Operating pressure: up to 12 bar

Connection: From below, G 1/2"

On request supplied with the connection block concealed behind a cover, coated to match the radiator.

Coating: Enamel (Colours shown in Zehnder catalogue), Chrome-plated.

Large selection of additional accessories.
